The most comprehensive range of traffic doors that can meet the needs of different customers with different application.

TDK Doors is a professional manufacturer of high-quality traffic doors. Our products are installed and performing well in a wide variety of applications and markets, including restaurants, grocery stores, refrigerated warehouses, food processing plants, and general industrial applications.

PRODUCT SELECTION CHART

01

HE 100

Application: Cooler need better insulation and energy saving

Technology: Double Gasketing and no thermal bridge

Patent Pending

02

HE 50

Application: Cooler and heavy duty warehouse or high end supermarket store

Technology: No thermal bridge and reinforcement frame work inside

Patent Pending

03

PL 38V

Application: Perfect for supermarket stores

Technology: Fast manufacturer and Fast delivery

04

PL 24E

Application: Stores and restaurant

Technology: Fast manufacturer and Fast delivery

05

RS 3000

Application: Store, restaurant and coffee shop

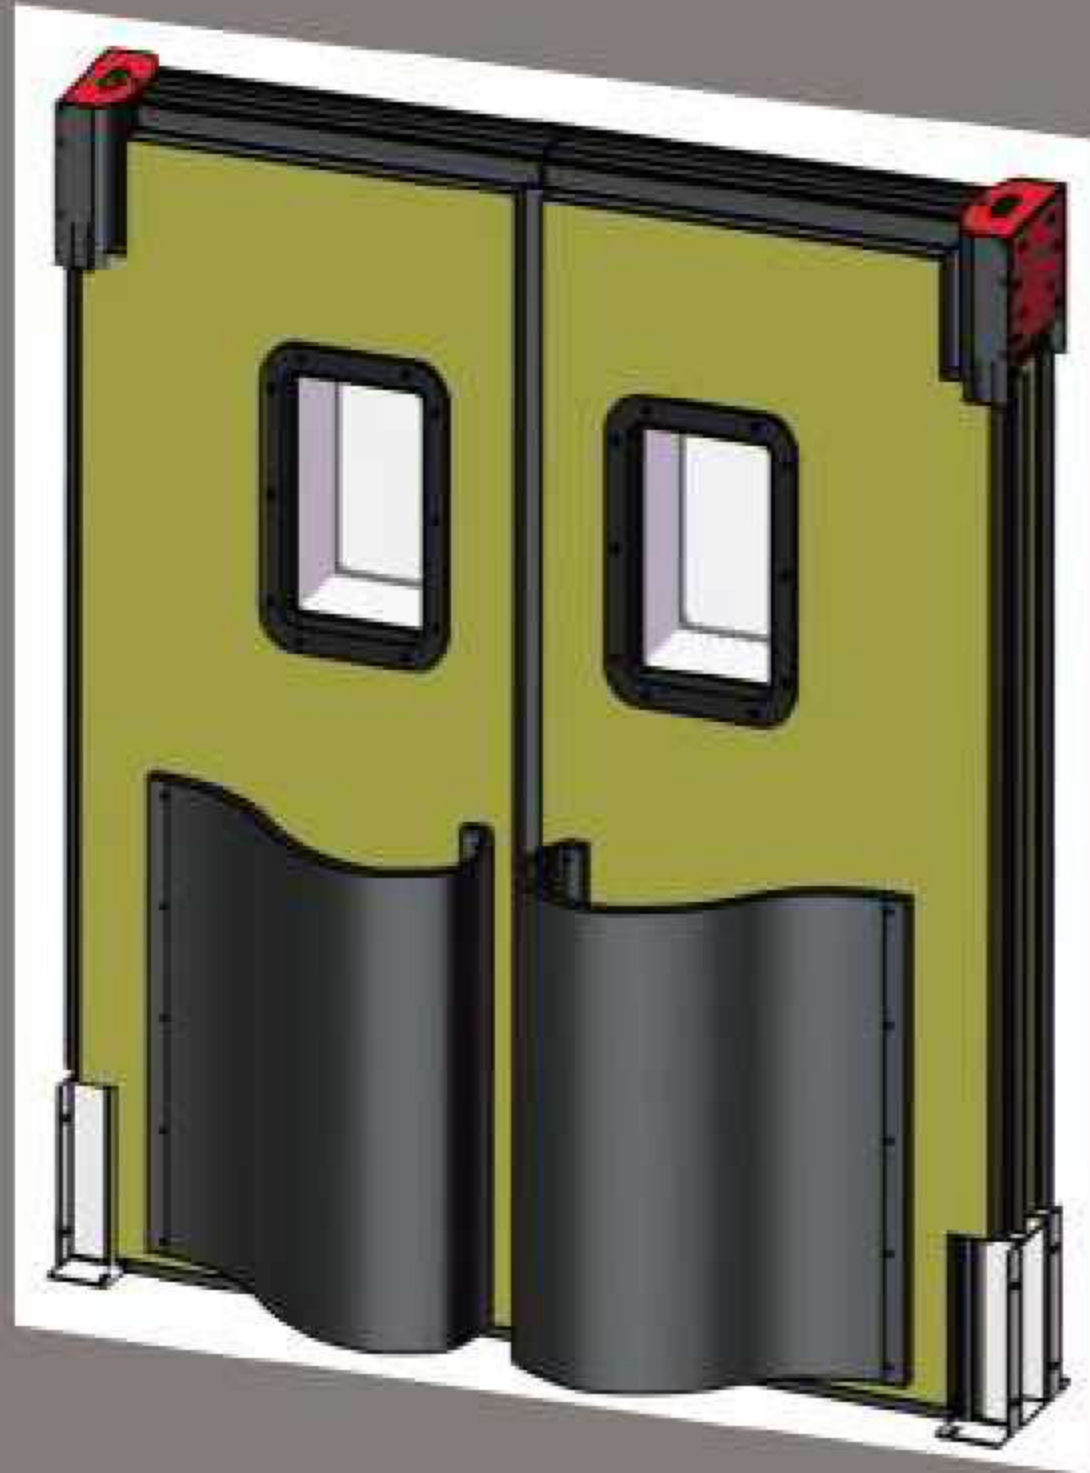

06

Alu 1000/SS 1000

Application: Restaurant

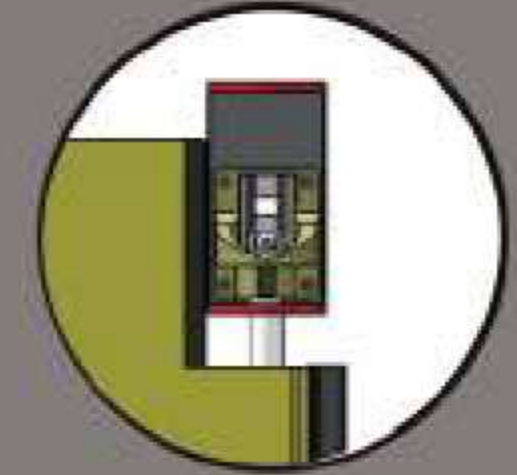

HE 100

Great R value with double gasket on the whole door make HE 100 perfect for cooler application

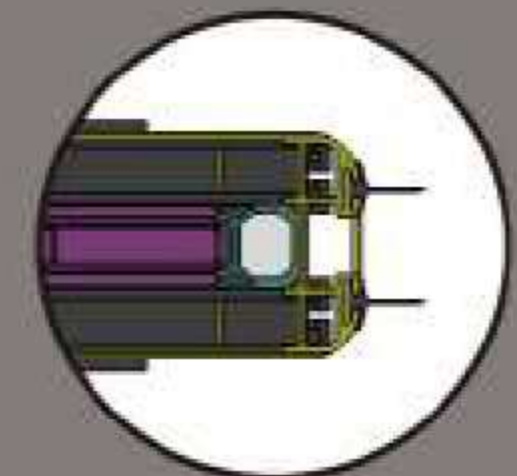

Fully sealed 4-inch thick insulated door panel, work with TDK heavy duty V-cam and rollers. Great R-value make HE 100 perfect for coolers.

Patent pending on double gasket design for all four sides of the door panel, this design will reduce end user's energy bill for sure.
